Descriptions of Meetings, Focus Groups, Surveys

Four Corners Health Department, York General Hospital, and Henderson Health Care Services worked together to conduct the 2021 York County Community Health Assessment. The purpose of a community health assessment is to describe the health status of the population, identify areas for health improvement, determine factors that contribute to health issues, and identify assets and resources that can be mobilized to address population health issues.

The Community Health Assessment Survey was completed as an update to the prior survey conducted in 2018. In 2018, a community driven process, called MAPP, was chosen to complete the assessment. Mobilizing for Action through Planning and Partnerships (MAPP) is a dynamic process developed by the Centers for Disease Control and Prevention (CDC) and the National Association of City and County Health Officials (NACCHO) that helps communities prioritize public health issues and identify resources for addressing them. Community ownership is the fundamental component of MAPP.

A Community Health Advisory Team consists of individuals representing 22 partner agencies from across the Four Corners District. The team works to identify health concerns and needs across the District and then helps to identify possible solutions to the most pressing concerns. The team uses the MAPP process as seen below.

Background Information

In April of 2018, Four Corners Health Department launched a community assessment project. Mobilizing for Action through Planning and Partnerships (MAPP) is a dynamic process developed by the Centers for Disease Control and Prevention (CDC) and the National Association of City and County Health Officials (NACCHO) that helps communities prioritize public health issues and identify resources for addressing them. Community ownership is the fundamental component of MAPP.

The MAPP project includes four community assessments. In this report, we have focused on the results of the Community Themes and Strengths Assessment. The Community Themes and Strengths Assessment focuses on collecting the community's perspective on issues such as health care, education, care for older adults, jobs, support networks, health problems, and risky behaviors. A survey was designed by utilizing a sample survey provided by NACCHO. The survey can be found in Appendix A.

An updated survey was distributed in 2021. The survey was available from May to July of 2021. It was available at community meetings such as Rotary, Kiwanis, or Sertoma Clubs. They were taken to churches, school events, county fairs, etc. The survey was also available online at Survey Monkey. In **York County**, **1,701** responses were collected, which was a vast improvement over the **254** responses collected in 2018. The compiled results of those **1,701** surveys are reported here.

How old are you?		
Answer Options	Response Percent	Response Count
14-18 years	3.32%	17
19-25 years	6.84%	35
26-39 years	25.59%	131
40-54 years	28.71%	147
55-64 years	25.98%	133
65-80 years	9.18%	47
Over 80 years	0.39%	2
Answered question	512	

Which describes your race/ethnicity? Please select just one.		
Answer Options	Response Percent	Response Count
White, not Hispanic or Latino	91.35%	475
Hispanic or Latino	2.5%	13
American Indian, not Hispanic or Latino	0.96%	5
Asian, not Hispanic or Latino	0.58%	3

 - d. West View Medical Building
 - i. York General Home Health
 - ii. York General Dialysis
15. York Medical Clinic/York Quick Clinic
16. York Surgical Associates

Implementation Strategy

Our Mission:

York General is a community, not for profit organization whose mission is:

- A. To be a regional health care provider for the citizens of York County and its contiguous counties with readily accessible high quality primary, obstetrical, mental health, medical, surgical, pediatric, and long term health care programs and services.
- B. To provide high quality physical and manpower resources.
- C. To operate within responsible fiscal guidelines without compromising Patient and Resident care in providing physical resources, manpower, and services.
- D. To be a leader in advocating high quality health care programs, developing resources, and providing services and programs that meet both preventive and primary health care needs of the citizens of the service area.
- E. To establish an ongoing process that insures that the Organization is measurably meeting its mission commitments to its Patients, Residents, Physicians, Employees, and Communities.
- F. To follow the ethical, legal, and regulatory requirements of civil, criminal, and healthcare laws. York General will create an atmosphere where staff shall expose without fear or favor, any illegal or unethical conduct and will react promptly to remedy any area of noncompliance.

Our Vision:

To be our region's trusted choice for the improvement of health and delivery of quality care throughout life.

Our Action:

York General has assessed the four health needs identified in the community and provides a response to each of the four as described below. A specific budgeted amount has been set aside to help meet and address the following community needs over the next three years:

1. **Obesity:** York General Wellness Center provides an affordable option for community members seeking to increase their physical activity and well-being. Our Wellness Staff can provide consultation to individual community member's that focuses on healthy lifestyle maintenance. York General Hospital can provide nutritional counseling with one of our registered Dieticians.
 - a. Strategies:
 - i. To develop a consistent, comprehensive message via marketing tools regarding nutrition, physical activity, and weight loss.
 - ii. Due to our large number of employees, target staff as the starting point for obesity prevention.
 - iii. Focus on our Live Well Program, adding additional incentives to staff and including the community when able.
 - iv. Provide information regarding the health benefits of diet and exercise via our Carelink newsletter monthly.
 - v. Work with community leaders and business leaders to develop additional methods of communication and education for employees and members of the community.
 - b. Goals:
 - i. Increase our Wellness Center Membership by 5% annually
 - ii. Provide a week of free Wellness to new Wellness members
 - iii. Sponsor the York News Times Weight Loss Challenge
 - iv. Sponsor the York Middle School fitness challenge
 - v. Work with the local Chamber of Commerce and appropriate public agencies to promote messages, newspaper press releases, etc.
 - vi. Provide nutritional counseling and education to patients with our Registered Dietician and/or Nursing staff.

2. **Mental Health Problems:** York General currently provides three full days of Specialty Clinic Coverage with a Mental Health Professional. We do not have inpatient mental health treatment available, but can address the community need of outpatient services through our Specialty Clinic.
 - a. Strategy
 - i. Provide treatment for mental health problems via the Specialty Clinic.
 - ii. Partner with the Medical Community to provide transfer for those needing inpatient mental health treatment in regional facilities.
 - iii. Educate York County residents on the availability of mental health services in York County.
 - iv. Promote awareness of mental health services in York County including school officials.
 - v. Able to identify the need in themselves and how to seek those services
 - vi. Advocate at a State level to enhance the access, availability and reimbursement for mental health services.
 - b. Goal
 - i. Evaluate the need for further mental health coverage as needed.

3. **Cancer:** York General Hospital provides comprehensive cancer services to area patients. Our Oncology Department and experienced staff are equipped to provide care to patients receiving chemotherapy and related cancer treatments. York General Hospital Specialty Clinic provides a visiting Oncology Physician at least twice a month in our Specialty Clinic, allowing patients to receive treatment and care close to home.
 - a. Strategies
 - i. To develop a consistent, comprehensive message via marketing tools regarding cancer prevention/awareness.
 - ii. Develop a media campaign to promote a consistent message
 - iii. Provide the most up to date technology for early cancer detection via use of our 3D mammogram, MRI, and CT scanner.
 - b. Goals
 - i. Host a Cancer Support Group/Cancer Survivor Christmas Party.
 - ii. Evaluate extension of Radiology Department hours to promote easier access to Mammogram's.
 - iii. Promote preventative screening via written and direct marketing materials.
 - iv. Donate time and monetary donations to the Relay for Life every June.

4. **Alcohol/Drug Abuse:** Basic referral services for substance abuse treatment are available. York General Hospital is not able to provide long term inpatient substance abuse treatment. It is in the best interest of the patient to accept referral as we do not have the staff with the expertise available in substance abuse treatment. York General Hospital is able to refer patients with substance abuse needs to a variety of services throughout the state of Nebraska. We are able to address alcohol abuse in the community through promoting awareness and providing education.
 - a. Strategy
 - i. Develop a campaign to promote alcohol/drug abuse awareness.
 - b. Goals
 - i. Continue to refer and encourage patients to seek inpatient treatment as appropriate.
 - ii. Establish community partners to develop a campaign to promote alcohol abuse.

Board of Directors Approval/Signature

The Community Assessment was reviewed and approved by the York General Hospital Board of Directors on _____, 2022. The Four (4) health issues identified in the Assessment are currently being met through services in York or through referral.

Signature, Board Chairman

Form 990 available for review upon request.
